

# Microsoft Requirement Sheet: Crestron Flex P-Series for Microsoft Teams UC-P100-T; UC-P110-T

The **Crestron Flex P-Series** are advanced voice-over-IP desk phones that integrate seamlessly with your existing infrastructure. It takes a new approach to the notoriously complex and disjointed world of telephony, taking advantage of the Crestron platform to bring Microsoft Teams™ functionality to every individual workspace. (The UC-P100-S model running Skype® for Business can be upgraded to a UC-P100-T model running Microsoft Teams with a firmware upgrade.)

**Below is a list of supported services.** If your services aren't listed below, please contact your Microsoft System Integration Partner for Microsoft Teams for confirmation that your environment supports this product.

Where is your Calendar Service?	
On Premises	Microsoft Exchange 2013 (or later)
Cloud	Microsoft Exchange and Office 365® software

Where is your Conference Service?	
Cloud	Microsoft Teams

Where is your Active Directory?	
On Premises	✓
Office 365	✓

## Required for Installation

Crestron dealers should obtain the services of a certified Microsoft System Integration Partner for Teams to help deploy systems. The adjacent chart is meant for reference only.

Any questions about compatibility should be directed to your Microsoft System Integration Partner for Teams.

See Crestron Online Help [OLH 1000288](#) for assistance finding a Microsoft System Integration Partner for Teams.
