

Microsoft Requirement Sheet: Crestron Flex UC-P100-S & UC-P110-S

The **Crestron Flex P100 and P110** are advanced voice-over-IP desk phones that integrate seamlessly with your existing infrastructure. It takes a new approach to the notoriously complex and disjointed world of telephony, taking advantage of the Crestron platform to bring Skype® for Business functionality to every individual workspace. (The UC-P100-S model running Skype® for Business can be upgraded to a UC-P100-T model running Microsoft Teams with a firmware upgrade.)

Below is a list of supported services. If your services aren't listed below, please contact your Microsoft System Integration Partner for Skype for Business for confirmation that your environment supports this product.
