Make hybrid collaboration flow

with ClickShare Present

There's no going back to the way we worked before. We're no longer prepared to slog to every meeting in person. And the virtual meeting has its shortcomings too. Instead, we're going for something better than both, **which we call hybrid**, a seamless blend of the physical and the virtual, of in-office and remote.
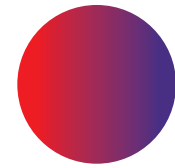

With ClickShare, our wireless presentation and conferencing hub for hybrid meetings, we give frictionless entry for all, whether you're at your desk in Brussels or a mountain top in Patagonia. From simple screen sharing to running the meeting from your laptop, all it takes is one click. Everyone's part of the conversation, everybody feels welcomed and valued.

Hybrid **meetings** where people and tech **click**

ClickShare Present brings easy wireless presentation to any meeting room. It makes collaboration better by sharing content from any device - laptop, mobile or tablet - on the central room display in seconds. No cables, no software to download, no training needed.

ClickShare Present empowers hybrid meetings in existing Microsoft Teams, Zoom or Webex conference rooms with simple, one-click wireless content sharing. ClickShare completes the existing set-up and makes collaboration flow in one click with these features.

- **Easy-to-use, one-click content sharing**

- **One intuitive wireless experience**
  - Plug & play with the ClickShare Button for employees and guests
  - Workflow integration with the ClickShare App

- **Full BYOD experience**
  - Including Airplay, Google Cast and Miracast

- **4K canvas to share side by side in full HD**

- **Enhanced video performance with full lip-sync and fluent video**

- **Touch screen support***
  - Control the shared computer with touch back
  - Ideate with annotation & blackboarding
  - Save & distribute your ideas

- **Advanced collaboration features**
  - View the room display on your device
  - Share your full screen, or a single window
  - Take control with moderation*

*features only available on the C-10 model.

Encourage your unique way of working

The ClickShare Present range is designed to fit your business perfectly and evolve with it. With flexibility for the future built in, it's one of the smartest investments you can make in your meeting room or conference room ecosystem.

Designed for your network
Whether you want to connect one unit to the network via ethernet or create a dedicated VLAN for all ClickShare units, you can simply integrate seamlessly with your network.

Built for the future
Our eco-friendly platform is designed with sustainability in mind. Authenticated and encrypted by default and governing futureproof security principles. Offering room calendar and booking, digital signage*

Secure by design
ClickShare was the first wireless collaboration technology to obtain ISO 27001 Certification, demonstrating our commitment to the right processes and structures for the highest international security standards.

Management dashboard
Managing ClickShare across your business is simple with our XMS Cloud Management Platform. Units are discovered easily and added to the management console with key information available on a dashboard. Administrators can intervene remotely without interrupting the meeting.

Insights integrated
Imagine having instant insights on how often meeting rooms are used and how people use ClickShare when things are hectic or quiet. With the insights module of the XMS Cloud Management Platform, you can understand behavior in the workplace and run your workspace more efficiently.

Always up-to-date
The new ClickShare is always new. It can be updated automatically, at scheduled times with your XMS Cloud Management Platform console or manually. You can be sure you have the latest version of wireless conferencing to give you the competitive edge.
